Office Politics: the elephant in the conference room

I help executives build successful, profitable companies by developing their managers into true leaders. Because all else being equal - you have a solid product or service and reliable delivery process - it's your mid-level and first-line leaders who make the real difference.

People deserve leaders who help them grow. And better, more humane leadership is essential in today's rapidly-evolving world.

I speak on real-world topics, presenting practical tools that attendees can use to change their professional and personal lives.

For 16 years, I held leadership positions in global organizations. In 2005, I realized I could have a more meaningful impact as an external consultant. Since then, it's been my mission to help leaders, teams, and individuals become the leaders they truly are.

I teach at local colleges and universities, speak for nonprofit and professional groups, and I wrote the manual on navigating politics in the workplace: *Office Politics: the elephant in the conference room*.

I'd love to present for your group or organization.

I've been conducting virtual programs since 2005 - remember conference calls? - and I have a fully-equipped office video studio.

Oh, the perils of office politics - and oh, how much we all hate to play that game!

Yet when you shift your perspective and realize what politics *really* involve (it's not what you think), you gain important communication skills that you can feel good about using.

And then you can advance your career with confidence and authenticity!

In this session, participants will

- ◆ Learn the four key concepts to unlock the mystery of authentic, non-icky politics
- ◆ Act from a new, more meaningful (and more realistic!) definition of politics
- ◆ Radically improve your communication skills
- ◆ Begin developing fluency in the tools of respectful politics (yes, they do exist)
- ◆ Make interpersonal politics work for you - with integrity

"Thank you for your outstanding presentation. The participants demonstrated great enthusiasm and involvement in the experiential activity you designed and facilitated. You approached a complex topic with insight and compassion, and many positive comments were expressed about your enlightening presentation."
